Blair,

Now that your market will be weekly, we can install the permanent signs. We will forward a cost estimate to David. Once you submit the necessary fees, then we will fabricate and install the permanent signs.

Until the permanent signs are installed, you will need to continue to request for temporary sign postings for parking restrictions on the extended block, as well as set up other temporary traffic control signs called for in the approved traffic control plans for the extended block and the original block (minus any permanent signs already installed for the original block). Once the permanent signs are installed, then you no longer have to do the temporary sign postings, but you will continue to have to set up the traffic controls per the approved plans for the extended block and the original block.

Pls let me know if you have any questions. Thank you.

Roy,

Roy,

Nice to reconnect.

Our market wants to be **weekly** beginning first Sunday of September. Is this possible? What do we need to do to make this happen? David expressed this was authorized, however his directive about when and how is difficult to discern (below.) Please help us understand.

Thank you,

Blair,

Roy Kim from DOT had emailed prior stating they could not do once a month signs. They would on do them once the market was weekly. I requested a weeks notice on posting temp signs until perm signs were installed.

I sent them a second request after speaking to Edgar last week.

Dear David,

If you would please reply all -- I have copied all of the folks that will be affected by the information.

In the most recent conversation with Edgar Varela (the gentleman operating the second portion/extension of the market) you had mentioned the 2nd block opening every Sunday would **only** be in effect once pricing of the permanent LADOT signs is given to us and paid for. You told us in an email exchange that we only needed to remind you a week before and you would update the permit to reflect every Sunday.

He is attempting to secure vendors for the entire month. Is it possible to write a "do not exceed" check until this is determined? Can you please clarify for all of us?

Also, the contact at Metro we reached out to has not responded. We want to make sure the buses are aware ahead of time.

Thank you so much!

Blair Besten
